WHO WE ARE
MH SERVICE

MH SERVICE
WORLD OF FORENSICS

MANUFACTURERS OF POWERFUL, FAST AND TRUSTED FORENSIC HARDWARE TO HELP IN THE DETECTION OF CRIME

Everywhere a crime happens, digital traces are left behind

mh Service helps governments and law enforcement officers to close cases faster

CRIME SCENE DIGITAL FORENSICS

Handmade hardware and special software for IT-forensic laboratories and field equipment

MOBILE PHONE FORENSICS

Special hardware for the examination of mobile phones

VEHICLE FORENSICS

Quick, intuitive acquisition and decoding of user data from vehicles' infotainment and telematics systems

FIELD AND OFFICE EQUIPMENT

mh SERVICE benefits from 30 years of experience and is now one of today's leading providers and suppliers of products and services related to IT forensics, mobile phone and audio-visual forensics and is Europe's only supplier with its own forensic hardware development and manufacturing departments. As a partner with all the current market leaders of forensic hardware and software, mh Service can provide you with the full range of high-end storage and network solution from a single source and configure your perfect customised IT-forensic laboratory.

AntAnalyzer®

HIGH-END WORKSTATIONS THAT INDEX AND PROCESS DIGITAL DATA AT CYBER SPEED.

The AntAnalyzer series is known around the world for its speed, reliability and persistence.

Forensic Laptop

THIS POWERFUL PORTABLE LAPTOP WAS DESIGNED SPECIALLY FOR IT-FORENSIC ANALYSIS.

This special laptop is an allround forensic device. It combines the power of desktop computers with the mobility of a laptops.

Forensic Cube

MOBILE WORKSTATION TO COLLECT DIGITAL EVIDENCE IN THE FIELD.

High performance, fast, effortless and quiet. The Forensic Cube is a portable system with a touchscreen, which can copy two suspect devices simultaneously.

Fly Away Kits

DESIGNED FOR MOBILE IT-FORENSIC ANALYSIS.

Accessories include all Tableau writeblockers and sufficient destination drives to image every device found out in the field.

BoxCop® Bundle

ALL YOUR WRITEBLOCKERS IN ONE DEVICE! THIS BUNDLE CONSISTS OF A LAPTOP AND THE BOXCOP.

Our smallest imaging unit with internal storage and cooling tray combines all the necessary writeblockers in a single housing.

TreCorder

MAXIMUM PERFORMANCE WITH HIGH-END QUALITY. THE TRECORDER IS THE MOBILE FORENSIC LABORATORY.

The TreCorder images 3 HDD, SSD, etc. and also phones & SD cards at the same time without any loss of performance.

Super Server

TESTED AND CERTIFIED BY ALL TOP FORENSIC SOFTWARE COMPANIES. CAN BE PRE-INSTALLED AND CONFIGURED WITH THE SOFTWARE OF YOUR CHOICE.

Our SuperServers live up to their name with up to 6 terabytes of RAM, several petabytes of hard disk capacity and 8 processors, and are among the most powerful devices on the market.

Nucleus

THE HEART OF EVERY IT-FORENSIC LAB! OUR MOST POWERFUL CENTRALISED SERVER EVER, COMPLETE WITH A HUGE STORAGE CAPACITY!

A scalable solution for data acquisition, analysis, case management with remote access dongle sharing capabilities. Works effortlessly with all forensic tools.

GeCo®

A HIGH-END ACQUISITION SERVER FOR CAPTURING AND STORING HUGE AMOUNTS OF DATA.

This system can image up to 8 drives at one time, using eight on-board write blockers that can handle SATA/IDE/SAS/USB and FireWire drives at full speed simultaneously!

OctaGraph

HIGH-END PASSWORD RECOVERY. PASSWORDS HAVE NEVER BEEN RECOVERED FASTER THAN WITH THIS.

Due to the simultaneous use of the 10 Graphics Processing Units (GPU) an increase in performance of up to a 1000% is possible.

Black Widow

A NEW GENERATION OF MOBILE PHONE FORENSICS, WITH 8-CHANNEL EXTRACTION.

The Black Widow allows high speed simultaneous extraction of up to 8 mobile devices using unique parallel forensics technology including on-board analysis.

Open Source Intelligence

POWERFUL SERVER SOLUTION USING PRE-CONFIGURED AND EASY-TO-USE WEB CRAWLING ANALYTIC SOFTWARE.

This solution is optimised for the automatic analysis of social networks, the Darknet and its markets, enabling targeted profiling and better analysis of influences and trends. It can be used online and offline.

PERFECT CUSTOMISED LABORATORIES
ON SITE OR ON WHEELS

WE CAN DESIGN, MANUFACTURE AND DELIVER YOUR VERY OWN PERSONALISED AND FULLY EQUIPPED IT-FORENSIC LABORATORY, EITHER ON SITE, ON THE BASE OF A TRUCK, IN A VAN, OR IN A PORTABLE CONTAINER.

Customised vehicles can be used for:

- Mobile Command Centres | Disaster & Crisis Management
- Covert Command Hubs
- Data Centres and Data Backup Centres
- IT-Forensics
- CSI Applications
